

INCREASE YOUR PRODUCTIVITY WITH HP DURA-BLADE®

HP DURA-BLADE™

Reach new levels of sheet metal parting productivity with Wilson Tool's High Performance Dura-Blade parting tool for thick turret punch presses.

Wilson Tool's highly engineered HP Dura-Blade dramatically reduces downtime by maximizing the number of hits between sharpenings. Dura-Blade utilizes a replaceable, fully-guided blade insert made of Ultima® Premium tool steel. It also features quick release stripper plate retention and a push button adjustment system that allows for fast and easy tool changes.

Only HP Dura-Blade is uniquely equipped to handle the daily rigors of sheet metal parting, so you can finish the job right.

High Performance Features

HP Dura-Blade includes all the performance-driven features of the HP-style tooling:

- HP-style quick release stripper retention for fast and easy tool changes
- HP-style side-mounted push-button for fast and easy tool adjustments

Plus

- Cutting insert made with Ultima Premium tool steel increasing the grind life for extended punch use
- Fully guided for maximum support and accuracy at the punching surface
- Designed specifically for parting applications
- Available with one- and two-sided relieved strippers for use in close-to-clamp applications
