

DE-BURR PARTS QUICKLY AND EFFICIENTLY

WILSON DE-BURRING TOOL

Available for Trumpf® or thick turret-style punch presses, the Wilson De-burring Tool coins a small chamfer on the cut edge to accurately and efficiently de-burr sharp edges in straight lines or arcs – including acute angles and very small radii.

Remove costly secondary de-burring operations

Using your punch press to de-burr parts eliminates the need for a separate de-burring step in your fabrication process, greatly increasing productivity and reducing production time.

Durable, easy to use ball assemblies save time, extend life

Wilson Tool's unique design enables operators to adjust the ball pressure without disassembling the tool, saving setup and adjustment time. In addition the ball assemblies are designed for extended tool life on a wide range of sheet materials.

Feature summary

- Fast, efficient de-burring tool eliminates costly secondary operation
- De-burrs straight lines or arcs, including acute angles and very small radii
- Unique ball assembly saves time and extends tool life
- For use in materials .8mm to 6mm thick
- Can be used to de-burr nested parts

| Description | Cat. No. Trumpf Style | Catalog No. Thick Turret |
|------------------------------------|-----------------------|--------------------------|
| Complete Tool | 26697 | 13878 |
| Punch Assembly | 26698 | 13879 |
| Die Assembly | 26699 | 13880 |
| Replacement Ball Assembly (1-off)* | 26700 | 26700 |

*For use in Punch Assembly or Die Assembly

Strength. Performance. Innovation

去毛刺模具

WILSON DE-BURRING TOOL

威尔逊去毛刺模具

适用于通快或厚转塔模具，准确、高效地去除直线，弧线，锐角以及非常小直径边缘的毛刺。

无需第二次低成本去毛刺操作

使用威尔逊去毛刺模具，可以省略单独去毛刺的生产过程，从而有效提高生产力，节约生产时间。

耐用的弹珠组件节约时间，延长使用寿命

威尔逊独有设计的去毛刺模具，不需单独拆卸模具调节弹珠压力，节约了安装及调整时间。此外，弹珠组件是专为延长模具寿命而设计适用于各种不同材质的钢板。

设计特点：

- 快速，高效的去毛刺模具，有效消除再次去毛刺成本
- 去除直线，弧线，锐角以及非常小直径边缘的毛刺
- 独特弹珠组件设计，节约生产时间，延长使用寿命
- 适用于0.8mm—6mm材料

| 描述 | 货号 通快 | 货号 厚转塔 |
|-----------------|----------|-----------|
| 整套 | 26697 | 13878 |
| 上模组件 | 26698 | 13879 |
| 下模组件 | 26699 | 13880 |
| 弹珠替换组件 (1-off)* | 26700 | 26700 |

* 用于上模组件或下模组件
