

# “WE GET ALMOST TRIPLE THE USE OUT OF OUR DURA-BLADE PARTING TOOL.”

For unbeatable parting performance every time choose Wilson HP Dura-Blade™. Engineered with Wilson's advanced Ultima™ Premium Tool Steel, Dura-Blade Parting Tools significantly increase sharpening intervals. With HP Dura-Blade, breaking, chipping and cracking are also minimized, resulting in significant downtime reductions.

Wilson HP™ makes changeouts and adjustments faster and easier with quick release stripper plate retention and side-mounted push

button adjustments. Each tool is fully guided for maximum support and accuracy at the punching surface. Available in one- and two-sided relieved strippers for close-to-clamp applications.
