

Wilson Wheel Training

SUMMARY

This is a free class that provides hands on instruction on the use and maintenance of the entire Wilson Wheel family of tooling. Attendees will learn how to utilize the wheel tools most effectively for their applications. Some of the topics covered will include:

- Do's and don'ts of operating the wheel tools.
- How to set up the tooling properly.
- Maintenance of the tools.
- How to program your machine to run the wheel tools.

Our facilities include several of the most popular turret punch presses on the market and provide a quiet, dedicated environment in which to learn.

WHO SHOULD ATTEND

Programmers and Machine Operators who have a good understanding of traditional sheet metal operations on CNC turret punch presses. These classes will not cover basic turret punch press operations.
